

Biologics will be 26% of the pharma market By 2026...

...but the 1st generation of **Biologics** is now going off patent...

...so copies of **Biologics** are for the 1st time coming to market...

...but are all these copies proven **Biosimilars**?

...and are all markets prepared to handle the risks associated with **Biosimilars**?

Come inform yourself of this critical and rapidly evolving issue at
The Roche Sponsored Talk:

Biosimilars: How Similar is Similar?
